#### 1. Overview of Operating Results and Financial Position

#### (1) Overview of operating results

#### ODomestic economic situation

The Japanese economic activities show slow recovery trend due to improvements of employment income environment and recovery of personal consumption.

On the other hand, rising resource prices and trends of financials/ foreign exchange markets affect domestic economy and prices as a background of global uncertainties.

## Our industry situation (Meat Processing industry)

The business environment remained harsh due to rising raw material prices and logistics costs on top of persistently high utility and packaging along with weakening yen. Besides, the Group should respond to consumer needs and values that are rapidly changing and diversifying, such as shift in consumer behavior, accelerated digitalization, and growing interest in sustainability.

#### Our operating results and overview

♦ Consolidated oper	ating re	esults		(% figu	es show year-on-year	change)		
Net sales		Net sales Operating profit		Ordinary profit		Profit attributable to		
		Operating pro	Tating profit Ordinary profit		in	owners of parer		
Million Yen	%	Million Yen	%	Million Yen	%	Million Yen	%	
470,141	4.9	10,580	(30.1)	12,298	(23.9)	7,589	(30.4)	

We implement the following measures based on the four priority policies and financial strategies of the Medium-Term Management Plan 2023.

Priority policies	Main measures
Strengthen management base	Strategic-based reorganization, Promotion of digital strategy
Strengthen earnings base	Reorganization of production and logistics bases, Enhancement of WAGYU exports
Initiatives for new businesses and markets	Strengthen Frozen foods, Expanding rage of Non-meat products, Strengthening Healthcare business
Initiatives for sustainability	Identification of Materiality, Setting of KPIs, and Promotion of initiatives achievement

In terms of financial strategy, we aim to enhance return on invested capital (ROIC) and increase dividends steadily around the payout ratio 40% to maximize shareholder value, by carrying out shareholder return policies while ensuring financial soundness and capital efficiency. Then we have set 2 billion yen limit for the acquisition of treasury stock for this fiscal year.

♦ Operating results by reportable segment	(% figures show year-on-year change)

	Net Sales		Ordinary profit		
	Million Yen	%	Million Yen	%	
Processed Food Division	190,517	4.7	3,510	(16.3)	
Meat Division	279,617	5.1	9,549	(24.4)	

<Processed Food Division>

- · Regarding Hams and Sausages, net sales increased driven by TV commercials and consumer campaigns to expand sales of the main products for consumer products such as "The Grand Alt Bayern", "Asano Fresh Series", and "Gotenba Kogen Arabiki Pork", on top of stable sales of business-use products.
- · Regarding Cooked foods, net sales increased driven by expanded product range to accommodate more diversified consumer needs such as pizza products of "La Pizza" and "Pizza Garden", "Onikuyasan-no-Sozai Series", and soy-meat products of "Marude Oniku! Series", on top of increased sales of business-use products.
- · Net sales of the Processed food division increased, but ordinary profit decreased, because the price revisions were unable to cover the increase in costs due to rising raw material prices and logistics costs.

<Meat Division>

- · In domestic business, net sales amount increased driven by increasing sales volume due to recovering foodservice demand. The profits increased as a result of value chain management connected with imported beef and imported chicken mainly, despite the impact of remaining high compound feed prices and rising logistics costs including storage fees.
- · In overseas business, under the situation of the global beef demand dropped comparison with previous year, therefore ANZCO Foods decreased the sales prices and sales volume of beef products.
- · Net sales of Meat Division increased, but ordinary profit declined due to the impact of the decrease in overseas business profit.
